THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail

DATE MAILED: 03/12/2012

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 695 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 695 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Amirali Sharifi, Registration No. 68,887, on March 8, 2012.

The application has been amended as follows:

Claims **1, 2, 7, 15, 16, 23, 24, 25, 29, 30** have been amended as follows:

1. (Currently Amended) A method comprising:

receiving, using a processing device, a first request, from a first sponsor of an access candidate, for access to a first security level in a computer network, wherein the first security level secures computational resources for accessing electronic data;

determining, using the processing device, whether access candidate attributes satisfy access requirements of the resources, ~~wherein the access candidate attributes are revocable based, at least in part, on a determination indicating that access to the first level is prohibited; , such that:~~

if access to the first security level is prohibited, allowing the first sponsor of the access candidate to revise the access candidate attributes and resubmit the revised access candidate attributes for reconsideration and repeating the determining;

~~if access to the first security level is not prohibited, granting, using the processing device, access to the first security level based on a determination indicating that access to the first level is not prohibited;~~

receiving, using the processing device, a second request, from a second sponsor of the access candidate, for access to a second security level in the computer network in response to the granting of access to the first security level, wherein the second security level secures the electronic data;

determining, using the processing device, whether the access candidate attributes satisfy access requirements of the electronic data secured by the second security level;

obtaining authorization for the second request from a resolution authority if the access candidate attributes fail to satisfy the access requirements of the electronic data in response to a determination indicating that access to the second security level is prohibited; and

in response to obtaining the authorization from the resolution authority, granting the access candidate access to the second security level.

2. (Currently Amended) The method of Claim 1, further comprising granting access to the second security level ~~in response to determining that~~ if the access candidate attributes satisfy the access requirements of the electronic data.

7. (Currently Amended) A method comprising:

receiving, using a processing device, a first request, from a first sponsor of an access candidate, for physical access to a computer network;

determining, using the processing device, whether access candidate attributes satisfy access requirements of physical access, ~~wherein the access candidate attributes are revisable based, at least in part, on a determination indicating that physical access is prohibited; such that~~

if physical access to the computer network is prohibited, allowing the first sponsor of the access candidate to revise the access candidate attributes and resubmit the revised access candidate attributes for reconsideration and repeating the determining;

if physical access to the computer network is not prohibited, granting,
~~using the processing device, the physical access to the computer network based on a determination indicating that physical access is not prohibited;~~

receiving, using the processing device, a second request, from a second sponsor of the access candidate, for access to electronic data in the computer network in response to the granting of physical access to the computer network;

determining, using the processing device, whether the access candidate attributes satisfy access requirements of the electronic data;

obtaining authorization for the second request from a resolution authority if the access candidate attributes fail to satisfy access requirements of the electronic data in response to a determination indicating that access to the electronic data is prohibited;
and

in response to obtaining the authorization from the resolution authority, granting the access candidate access to the electronic data.

15. (Currently Amended) A method comprising:

identifying, using a processing device, a plurality of data subsets of electronic data, wherein respective data subsets correspond to respective sets of access requirements;

determining, using the processing device, at least one data class associated with the respective data subsets, the at least one data class identifying at least a citizenship requirement and a location requirement for access to data associated with the at least one data class;

receiving, using the processing device, a first request, from a first sponsor of an access candidate, for access to a first security level in a computer network, wherein the first security level secures physical access to a computer workstation for accessing the electronic data, the first request including access attributes of the access candidate comprising an indication of a citizenship status of the access candidate, an indication of a current location of the access candidate, and an indication of an existence of a data access agreement with the access candidate;

determining, using the processing device, whether the access candidate attributes satisfy access requirements of the first security level, ~~wherein the access candidate attributes are revisable based, at least in part, on a determination indicating that access to the first security level is prohibited; such that:~~

if access to the first security level is prohibited, allowing the first sponsor of the access candidate to revise the access candidate attributes and resubmit the revised access candidate attributes for reconsideration and repeating the determining;

if access to the first security level is not prohibited, granting, using the processing device, access to the first security level based on a determination indicating that access to the first security level is not prohibited;

receiving, using the processing device, a second request, from a second sponsor of the access candidate, for access to a second security level in the computer network in response to the granting of access to the first security level, wherein the second security level secures access to at least one of the plurality of data subsets;

determining, using the processing device, whether the access candidate attributes satisfy the respective set of access requirements corresponding to the at least one of the plurality of data subsets;

obtaining authorization for the second request from a resolution authority if the access candidate attributes fail to satisfy the respective set of access requirements corresponding to the at least one of the plurality of data subsets in response to a determination indicating that access to the at least one of the plurality of data subsets is prohibited; and

in response to obtaining the authorization from the resolution authority, granting the access candidate access to the second security level.

16. (Currently Amended) A system comprising:

storage means for receiving and storing electronic data using a computer network;

means for evaluating a first request for access to one or more resources in the computer network, wherein the resources secure the electronic data, wherein an evaluation of the first request includes a first comparison of one or more attributes of the access candidate with one or more access requirements associated with the resources, ~~and wherein the one or more attributes of the access candidate are revisable if the first comparison indicates that access is prohibited;~~ such that:

if the first comparison indicates that access is prohibited, means for allowing a sponsor of the access candidate to revise the one or more attributes of the access candidate and resubmit the revised attributes for reconsideration and repeating the determining;

if the first comparison indicates that access is not prohibited, granting access to the one or more resources ~~if the first comparison indicates that access is not prohibited;~~

means for evaluating a second request for access to the electronic data by the one or more resources, wherein an evaluation of the second request includes a second comparison of the one or more attributes of the access candidate with one or more access requirements associated with the electronic data;

means for obtaining authorization for the second request from a resolution authority if the one or more attributes of the access candidate fails to satisfy one or more access requirements associated with the electronic data in response to the

evaluation of the second request indicating that access to the electronic data is prohibited; and

means for granting, in response to obtaining the authorization from the resolution authority, the access candidate access to the electronic data using the one or more resources.

23. (Cancelled)

24. (Currently Amended) A method comprising:

receiving, using a controller in a computer network associated with secured electronic data, a request for access to the secured electronic data in the computer network;

comparing, using the controller, one or more attributes of an access candidate with one or more access requirements associated with the secured electronic data;

~~obtaining requesting~~ authorization for the request from a resolution authority if the one or more attributes of the access candidate fails to satisfy the one or more access requirements associated with the secured electronic data; ~~[[and]]~~

in response to ~~obtaining or not obtaining~~ receiving the authorization from the resolution authority, granting ~~or denying~~ in whole or in part, using the controller, access to the secured electronic data ~~based, at least in part, on a determination based on access candidate information and request related information, ; and~~

~~wherein the one or more attributes of the access candidate are revisable based,~~
~~at least in part, on a determination denying access to the secured electronic data~~
in response to not receiving the authorization from the resolution authority,
allowing a sponsor of the access candidate to revise the one or more attributes of the
access candidate and resubmit the revised attributes for reconsideration and repeating
the comparing.

25. (Currently Amended) The method of Claim 24, further comprising granting access to the secured electronic data ~~in response to a comparison indicating that access by the access candidate is not prohibited~~ if the one or more attributes of the access candidate satisfies the one or more access requirements associated with the secured electronic data.

29. (Currently Amended) A method comprising:
receiving, using a controller in a computer network associated with secured electronic data in the computer network, a request for access to the secured electronic data in the computer network;
comparing, using the controller, one or more attributes of an access candidate with one or more access requirements associated with the secured electronic data ~~[[.]]~~
such that:

~~if access by the access candidate is not prohibited, granting, using the controller, access to the secured electronic data in response to a comparison indicating that access by the access candidate is not prohibited;~~

~~obtaining if access by the access candidate is prohibited, requesting authorization for the request from a resolution authority in response to a comparison indicating that access by the access candidate is prohibited; [[and]]~~

~~in response to obtaining or not obtaining receiving the authorization from the resolution authority, granting ~~or denying~~ in whole or in part, using the controller, access to the secured electronic data based, at least in part, on a determination based on access candidate information and request related information, ; and~~

~~wherein the one or more attributes of the access candidate are revisable based, at least in part, on a determination denying access to the secured electronic data~~

~~in response to not receiving the authorization from the resolution authority, allowing a sponsor of the access candidate to revise the one or more attributes of the access candidate and resubmit the revised attributes for reconsideration and repeating the comparing.~~

30. (Currently Amended) An article of manufacture including a non-transitory computer-readable medium having instructions stored thereon, execution of which causes a processing device to perform operations comprising:

receiving, using a processing device, a request for access to a first security level in a computer network;

comparing, using the processing device, one or more attributes of an access candidate with one or more access requirements associated with the first security level, ~~wherein the one or more attributes of the access candidate are revisable based, at least in part, on a determination indicating that access by the access candidate to the first security level is prohibited; such that:~~

if access to the first security level is prohibited, allowing a first sponsor of the access candidate to revise the one or more attributes of the access candidate and resubmit the revised attributes for reconsideration and repeating the comparing;

if access to the first security level is not prohibited, granting, using the processing device, access to the first security level based on a comparison indicating that access by the access candidate to the first security level is not prohibited;

receiving, using the processing device, a request for access to a second security level in the computer network;

obtaining authorization for the request from a resolution authority in response to a comparison indicating that access to the second security level by the access candidate is prohibited.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance.

Claim **1, 7, 15, 16, 24, 29, 30** are allowed based on the following:

The prior art of record, considered individually or in combination, fails to fairly show or suggest: *determining, using the processing device, whether access candidate attributes satisfy access requirements of the resources, wherein the access candidate attributes are revisable based, at least in part, on a determination indicating that access to the first level is prohibited, such that: if access to the first security level is prohibited, allowing the first sponsor of the access candidate to revise the access candidate attributes and resubmit the revised access candidate attributes for reconsideration and repeating the determining; and if access to the first security level is not prohibited, granting, using the processing device, access to the first security level*, in addition to the other limitations in a manner as recited in claims **1 - 22, 24 - 38, 41 - 44**.

Claims **2 - 6, 38, 31** are allowed due to allowed base claim **1**.

Claims **8 - 14** are allowed due to allowed base claim **7**.

Claim **42 - 44** is allowed due to allowed base claim **15**.

Claims **17 - 22** are allowed due to allowed base claim **16**.

Claim **25 - 28** is allowed due to allowed base claim **24**.

Claim **31 - 37** is allowed due to allowed base claim **30**.

So as indicated by the above statements, Applicant's arguments have been considered persuasive, in light of the set of claims with limitations as well as the enabling portions of the specification. The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
